Sproul Paul Little Paul Little Bruce L. Shelley Alvin J. Schmidt
World Language (Ukrainian)	Teacher Generated	

*Math classes can be accelerated beginning with Algebra I in 8th grade.

Although KCA uses curriculum resources from both Christian and secular publishers, all classes are taught from a Biblical worldview.

Secondary courses that cannot be covered by faculty in the building are provided through a partnership with Sevenstar Academy. Online learning format is asynchronous yet scheduled into the school day with in-person supervision and progress support.

World Language courses and Ukrainian Education for UA citizens:

KCA's World Language curriculum is under revision to establish Ukrainian as the main subject taught as a learned language. For Ukrainian citizen students and native Ukrainian speakers, KCA partners with a Ukrainian Christian school to provide the required Ukrainian language and social studies classes. For English language learner (ELL) students, ELL courses are prioritized over Ukrainian. High School credits for World Language may also be earned from courses offered by Sevenstar Academy.

Special Subjects and Elective Classes:

Elementary students participate weekly in computer, art, music, and physical education classes.

Secondary students may choose to take art, music, drama, desktop publishing, or various other elective classes contingent on available faculty. Physical Education and Health are required subjects in 6-8th grade and High School.
